Reset

Instructions

- To start a new game, click the “reset” button on the board slide. This will reset the board, set each player’s score to 0, and randomly move the Daily Double.
- Click “Adj Scores” from the board to manually change scores.
- Click on the lights at the bottom to start a countdown (click below to change).
- Incorrect response: Click the “incorrect” button if the player responds incorrectly, and their score will subtract.
- Correct response: Press the “correct” button if the player responds correctly, and the correct response will then be shown.
 - To skip viewing the correct response, check the box below
- If no one gets the question correct, press the arrow to go to the next slide (or return to the board if the checkbox below is checked).
- **Troubleshooting:**
 - Do not delete the value shape (e.g. \$400) from any slide. If you don’t like it, you can move it off the screen, but DON’T DELETE IT, and don’t change its text!!!
 - Do not delete question slides and copy them in from somewhere else. You can do this to replace “answer” slides, but just not question slides (unless you re-apply the hyperlinks to the board)
 - If none of the functions are working, see [“Macro Troubleshooting”](#)

Adjust Countdown Timer

- ☒ Enable Daily Doubles
- ☐ Return to Board on correct response
